Title List Changes/Modifications Qtr. 3 2009

In Quarter 3, we are excited to announce a new language, **Korean**, to our ExitCare library. The "Easy-to-Read" category has grown by 73 new titles. The total number of ExitCare documents has increased by 111 new English titles, 21 new Spanish titles, 127 new Canadian French titles, 7 new Russian titles, 10 new Tagalog titles, 2 new Portuguese titles and 1 new Haitian Creole title. We will continue to add titles to all of our languages and welcome requests. Based on our extensive editorial review guidelines, we have updated and revised 796 documents this quarter and our documents continue to be reviewed by physicians and medical specialists, by Medical Risk Management experts, and by experts in technical writing to make our documents as medically complete and as easily understood as possible. The end result of this review process is a list of documents listed below which reflect a variety of revisions that were undertaken. This process is ongoing and will continue throughout each quarterly release. If you would like more detail on the revisions listed below, please contact John Kroger at johnk@exitcare.com or by phone at 800-694-6669 ext. 519.
